

Our range of solar bollards are used in various application; for safety and security lighting, to ensure compliance with the Australian Standard P4 lighting code for walkways and paths, or to simply provide ambient lighting in gardens. The sleek, modern design and robust construction of the Venus solar bollard makes it ideal for use in architectural and commercial wayfinding projects. The light source is from 10 4000k high intensity LEDs, giving the fixture approx 200lm output. The 4.8v,7w solar panel and 4.2v/1500ma inbuilt lithium battery, combine to enable the bollard to illuminate for 10-12 hours each night. Finishes include stainless steel and standard powdercoat colours with various coloured lens also available. The bollard is suitable for in-ground or bolt down installation.

FEATURES

Commercial grade solar lighting

Requires 10 - 12 hrs charge prior to use

10 - 12 hours light output per night

High quality inbuilt lithium battery

Attractive modern design

Ideal for illuminating paths and walkways

Automatic light sensor turns LEDs on and off for dusk to dawn operation

Warranty: 3 year warranty for faulty workmanship or component failure not influenced by external means

Suitable for inground or bolt-down installation

Available in standard powdercoat colours
or stainless steel finish

Specifications

Finish	Various finishes available
Charge Time	4 - 6 hours
CCT	4000K (cool white)
Bollard Size	790H x 150Wmm
Brightness	Approx. 200 lumen output
Solar Panel	4.8V 140mA 7watts
Solar Panel Size	80H x 80Wmm
Light Source	10 high intensity LEDs
Battery	4.2V/1500mA inbuilt lithium battery
Material	Aluminium, glass diffuser
SKU	SOLB014
